

Wisconsin No Call List.. As a resident of Wisconsin, I must ask you to uphold the No Call List law which I fully support. Ever since joining the list I have received zero disturbing and unproductive calls while not missing any important personal or business calls. If I need business, I will go find it myself and I don't need any telemarketers, even from my personal and business bank, calling to offer me deals when I don't need them.

Thank you for your consideration.

Sincerely,
Richard Keiser
